

# WATER FOR WILDLIFE WORKSHOP

November 2nd  
2:00-4:30PM  
TomKat Ranch in Pescadero

Families, farms and wildlife all need water – whether it is a creek, pond, or water trough – and we are all feeling the pressure of the drought.

This workshop is for people who are interested in implementing wildlife-friendly practices on their property. Learn from local biologists, and a rancher, a farmer, and a residential property owner on steps they have taken to improve wildlife access to water.

**Join us to learn what you can do!**
